

Century Lens Accessories for Sony HVR-Z7/S270

The renowned Century Pro Series HD professional add-on lenses are designed to help you shoot wider, reach further, and move in closer than the lens on the Z7/S270 alone allows. The superb optics are designed to produce the best professional images. These extraordinary add-ons minimize chromatic aberrations and unwanted distortion and produce images that are ultrasharp edge to edge. Century front-mounted accessories interface directly with the camcorder's lens via a secure locking bayonet mount. So mounting and removing is quick, easy and safe.

.6X HD Wide Angle Adapter

Lightweight and cost-effective, the .6X HD Wide Angle Adapter increases coverage by 40%. This professional optical tool yields a much wider angle of view with extremely low distortion. Recommended to be a non-zoom attachment. However, it will allow partial zoom with slight vignetting in underscan.

OHD-06WA-Z7U

.3X HD Ultra Fisheye Adapter

The .3X HD Ultra Fisheye Adapter offers the widest angle of view & eye-popping distortion with superior edge-to-edge resolution. With its unmistakable style, this adapter is a must for extreme sports shooters.

OHD-FE3X-Z7U

Wide Angle Sunshade

OVS-SS05-00

This lightweight, 105mm clamp-on sunshade is a cost-effective means of light management. Offers a provision for (1) 4"x4" glass filter in a holder. Weighs only 6.5 oz.

.75X HD Wide Angle Converter

The right tool for shooting situations that require both a wider angle of view and full zoom capability. Increases the field of view by 25% throughout the entire zoom range. This professional add-on lens produces crisp, high resolution images with low distortion and superior contrast edge to edge.

OHD-75CV-Z7U

1.6X HD Tele-Converter

Extend the reach of your zoom without exposure loss. The 1.6X HD Tele-Converter is a front-mounted accessory that also provides greater telephoto reach. Use it to instantly shift the focal length range of your camera in the telephoto direction. The perfect tool when it's inconvenient, dangerous or impossible to move as close to the subject as you would like.

OHD-16TC-Z7U

Fisheye HD Adapter

Add the Fisheye to the front of your lens for a wider angle of view and a remarkable degree of barrel distortion with no vignetting. The Fisheye exaggerates depth, pulling nearby objects closer and causing distant objects to recede into the background. The Fisheye allows for partial zoom—but for the most pronounced effect, you'll want to stay at the wide end of the range.

OHD-FEAD-Z7U

Achromatic Diopters

Available in +2.0 & +3.5 magnifications, Achromatic Diopters supply greater close-up range & magnification while maintaining zoom capabilities, without compromising image quality. Ideal when you need to focus tightly on a small object—in tabletop, miniature and flat field videography. 72mm thread.
