

# Century Lens Accessories for Sony PMW-EX3/EX1R

The renowned Century Pro Series HD professional add-on lenses are designed to help you shoot wider, reach further, and move in closer than the lens on the EX alone allows. The superb optics are designed to produce the best professional images. These extraordinary add-ons minimize chromatic aberrations and unwanted distortion and produce images that are ultrasharp edge to edge. Century front-mounted accessories interface directly with the camcorder's lens via a secure locking bayonet mount. So mounting and removing is quick, easy & safe.

## .6X HD Wide Angle Adapter

OHD-06WA-EX1

Lightweight and cost-effective, the .6X HD Wide Angle Adapter increases coverage by 40%. This professional optical tool yields a much wider angle of view with extremely low distortion. Recommended to be a non-zoom attachment. However, it will allow partial zoom with slight vignetting in underscan.

## .75X HD Wide Angle Converter

OHD-75CV-EX3

The right tool for shooting situations that require both a wider angle of view and full zoom capability. Increases the field of view by 25% throughout the entire zoom range. This professional add-on lens produces crisp, high resolution images with low distortion and superior contrast edge to edge.

## Fisheye HD Adapter

OHD-FESU-EX1

Add the Fisheye to the front of your lens for a wider angle of view and a remarkable degree of barrel distortion with no vignetting. The Fisheye exaggerates depth, pulling nearby objects closer and causing distant objects to recede into the background. The Fisheye allows for partial zoom—but for the most pronounced effect, you'll want to stay at the wide end of the range.

## Xtreme HD Fisheye

OHD-FEWA-EX1

The broadest fisheye on the market, this eye-popping attachment offers an ultra-wide field of view along with pronounced barrel distortion. The highest grade optics produce a 160° horizontal field of view (180° at the corners). Rod support recommended.

## 1.6X HD Tele-Converter

OHD-16TC-EX1

Extend the reach of your zoom without exposure loss. The 1.6X HD Tele-Converter is a front-mounted accessory that also provides greater telephoto reach. Use it to instantly shift the focal length range of your camera in the telephoto direction. The perfect tool when it's inconvenient, dangerous or impossible to move as close to the subject as you would like.

## 2.0X HD Tele-Converter

OHD-20TC-EX1

Extend the reach of your zoom even further without exposure loss. The 2.0X Tele-Converter is a front mounted accessory that also provides greater telephoto reach.

Note: allows only a 20% pull back.

\*Support Recommended.

## Achromatic Diopters

For maximum magnification and image clarity, these macro zoom attachments offer more close-up range, OAD-8616, OAD-8620, while preserving zoom OAD-8626 capability. Ideal for focusing tightly on small objects in tabletop, miniature, & flat field work. In +1.6, +2.0 & +2.6 strengths. Stackable for even greater magnification. (Adapter ring required, Stock #0FA-7786-00)

## Bayonet Mount for a Secure and Perfect Fit

Mounting and removing accessories is so easy it takes just a few seconds. Most Century adapters & converters interface directly with the bayonet mount at the front of the lens and require just one hand to lock and unlock with a simple twist. There's no threading & no jamming. Best of all, there's less wear & tear on your lens.

## Superior Quality Optical Glass and Coatings

Professional high-quality optical glass with multi-layer coatings produce optimum image quality with high resistance to scratching.
